## FOREWORD

This is the second Community Directory published by the Killocock and Districts Community Council and it includes community activities, voluntary and support services. It updates the first directory, which was published in 2000 as part of the new millennium celebrations. This Directory has been partly funded by a Lottery Grant from the South Western Area Health Board and was compiled by the members of the Executive of the Community Council.

We would like to thank all who co-operated with us in preparing this edition. It is our intention that every household in the Killocock and Newtown Parish will receive a copy of this Directory.

Please note that the information contained in this booklet is the latest furnished to the Committee at the time of going to print and may be altered subsequently. In no circumstances will the Committee be liable in respect of any error in or omission from this booklet.

We hope that this Directory will continue to be a useful source of local information and will encourage you all to get involved in activities within our community. There's something for everyone!

The Directory will be available from:

Websites: [killocock.muintir.ie](http://killocock.muintir.ie) or [www.killocock-online.com](http://www.killocock-online.com)

• **MUINTIR NA TIRE**

Muintir na Tire is a National voluntary organisation dedicated to promoting the process of Community Development. Canon Hayes founded the organisation in 1937. It aims to enhance the capacities of people of communities, rural and urban to become involved in local, social, economic, cultural and environmental development.

The basic structure which Muintir na Tire utilises to promote its aims and objectives is the democratically elected representative Community Council of which Kilcock and Districts Community Council is one, which endeavours to represent the interests of local communities at various levels of policy-making.

It has a national network of over 1,300 Community Councils, Community Alert groups and associated development groups.

Philosophy and Vision of Muintir na Tire

The core principles of the organisation are based on neighbourliness, self-help and self-reliance, on the exercising of active citizenship within communities, strengthening local responsibility, initiative and leadership and the delivery of programmes of local development which address identified real needs in the community.

Muintir na Tire's core principles underpin our mission, which can be seen to serve three functions:

**Animations and Organisations:** Actively supporting local communities in organising themselves and developing their own capacities and resources to respond efficiently to their identified needs and problems with the help, where required, of external resources and technical assistance.

**Representation and Advocacy:** Consolidating viewpoints and interests of local communities into coherent agendas for action; and recommending and supporting these at the various levels of the decision-making process by policy-making bodies such as local government.

Monitoring Change and Influencing Policy: Assessing the potential implications of socio-economic forces; policy trends for local development; and seeking to influence government policy formation and institutional arrangements as appropriate.
